ABOUT ME

Versatile Full-Stack Developer and DevOps Engineer skilled in building secure, scalable, and high-performance web applications. Proficient in robust backend technologies like Python (Django) and PHP (Laravel), alongside modern frontend frameworks including React, TypeScript, and Svelte. Certified AWS Cloud Practitioner with strong hands-on experience in DevOps practices, containerization using Docker, and automating continuous integration and deployment (CI/CD) pipelines via GitHub Actions. Passionate about designing modular architectures, optimizing cloud infrastructure, and solving complex real-world problems with clean, maintainable code. You can provide a description of yourself here...
